\$10,000 DAMAGE SUIT FILED LAST WEEK.

C. T. Bondurant filed a suit for \$10,000 damages against Dahuke-Walker Milling Co., et al, last week. This suit is a result of another suit filed by Dahuke-Walker Milling Co. against Mr. Bondurant, which alleged breach of contract, in refusing to deliver about 14,000 bushels of wheat at a contract price of \$1.04 a bushel. An order of delivery was made by Circuit Clerk Morris and Bondurant gave bond for the wheat and shipped it to Nashville. In Circuit Court last week the original suit was dismissed by Dahuke-Walker and a new suit filed, which alleged damages were due them by reason of the fact that the wheat was worth more than they contracted to pay for same, also furnishing sacks, and damage to same.

Mr. Bondurant is now suing for damages, alleging that he is damaged that much by reason of worry, great expense, and interference with shipping his wheat. The case will come up at the January term of court.

It strikes us that it would be hard to improve on the ticket, suggested in last week's paper by a subscriber, for city councilmen. It is our understanding that none of the present members of the board will be candidates for reelection; in that case, a ticket like the one suggested will doubtless be elected without opposition. The gentlemen named are representative of the whole town, clean progressive, business men. We are in favor of "closing the nominations" right here—just as a large number have already expressed themselves—and make ready to elect these gentlemen. A number of other good material has been suggested, but it is doubtful if another combination could be found that would give us the team work, representation and business-like administration that these six gentlemen are capable of doing. Let us forget, their names are Ernest Johnson, A. O. Caruthers, H. C. Helm, H. A. Stonecipher, G. M. Ross and Dr. Chas. Curlin.

Commanders of German submarines have been given strict orders, it has been learned authoritatively, that in case of doubt as to the intentions of liners they are to take the safe course and permit the ship to escape rather than run slightest risk of error.

WHEAT 34 YEARS OLD.

Wheat thirty-four years old has just been ground and it made exceptionally good bread. The wheat was grown and harvested in 1881 by a farmer who swore he would not sell it until it reached a certain price. The price was still a secret when the farmer died. The grain was then put on the market bringing a good price.

WAS MISERABLE COULDN'T STAND

Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lackawanna, N. Y.—"After my first child was born I felt very miserable and could not stand on my feet. My sister-in-law wished me to try Lydia E. Pinkham's Vegetable Compound and my nerves became firm, appetite good, step elastic, and I lost that weak, tired feeling. That was six years ago and I have had three fine healthy children since. For female troubles I always take Lydia E. Pinkham's Vegetable Compound and it works like a charm. I do all my own work."—Mrs. A. F. KREAMER, 1574 Electric Avenue, Lackawanna, N. Y.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

SHORT SKIRTS AND ANKLE WATCHES—STYLE.

Sorter skirts will be worn this fall and winter, girls. Nine inches from the ground they'll be and flaring wide at the bottom. High shoes, laced in many ways, will be in vogue, with ankle watches (Oh, la, la!). Waists will be extremely tight and will button in front, and—well, there's so much of this let's proceed in orderly fashion.

Coats? Yes, they will be worn. Callot says—you know Callot surely? Callot is the Paris couturier. Well, Callot says that coats will date back to 1830, being very full, with big pockets, fur cuffs and circular collars. The collars will come up to the tip of the wearer's nose.

Decollete will be the same as usual—only more so, and mostly V-shaped. And here's another thing: Correct evening dress demands the butterfly cape. You know the kind—buttons or loops or something like that over the shoulders, so that when you spin around quickly you appear to be sprouting wings. And you will be able to buy Georgette's models this winter. Georgette is a Parisienne who is an extremist. No one makes shorter skirts than Georgette. No one dares to. In fact, nobody could.

Hats are coming back into style again. You remember, they rather went out of fashion this year, and all the women were wearing no crowns, just sort o' half hats. But they will have crowns, brims and everything else this fall and winter only the crowns will be much higher and the brims far smaller.

AS CLEAR AS MUD.

Relative to the railroad construction work to be done in Southern Illinois at an early date, as recently mentioned in this paper under a Metropolis date, the Marion, Ills. Leader has these facts of interest:

"The Metropolis bridge makes the connection for both the Chicago and St. Louis trains and from there a new line will be built to connect with the present line passing through Cairo east of Hickman, Ky.

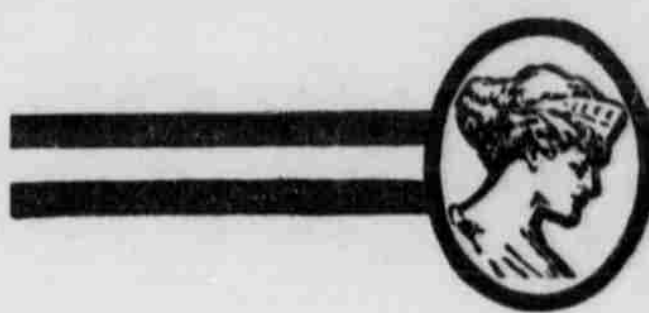

"The heavy grades which will be avoided by the two new lines will be an important feature in the operation of trains and there will be other items of expense eliminated which will count for much in changing the routings of trains. Marion will profit by same as will the entire territory touched by the lines in Southern Illinois."—Paducah News-Democrat.

When you have an aching stretchy feeling and you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. HERBINE offers you the help you need. It destroys the malaria germs, drives out all impurities and makes you feel bright and vigorous and cheerful. Price 50 Sold by Hickman Drug Co. Adv.

The tragic loss of three lives at Hickman as the result of the operation of one blind tiger isn't at all surprising. Blood has been shed in many other localities of Kentucky, and human life has been sacrificed, simply because some contemptible cur set up the gain of a few dollars for his own filthy purse as of greater importance and as a more sacred right than the expressed will of the people, crystallized into the law of the land. Jails and fines have no terror for the average bootlegger, and, as The Times has frequently suggested, the evil will never be broken up until the legislature makes the illegal sale of liquor a felony, punishable, even at the minimum, by a long term at hard labor in the penitentiary. Why can't the next General Assembly enact such a law? The prohibitionists will be for it to a man, and certainly the legitimate liquor interests, which profess such horror of the practice, will not be found objecting.—Todd County Times.

**Gowns Fit Better Over ATHENA Underwear**

1. Not the fit of ordinary underwear but "glove fit."
2. Woven and tailored to really fit the figure—patented features of merit.
3. Athena garments are durable and have a dainty elegance—they are tailored to fit—therefore wear right.

Here are the features that give Athena its comfort, its daintiness and its tailored fit

**Low-Neck Sleeveless Suit**

Just as a woman is fuller across the bust than the back, so this garment is made with extra fullness in front.

Sloping Shoulders and Sleeves

Conform to the shoulders without wrinkling under arms.

Perfect Shoulder-Stay

Keeps garment from stretching across the shoulder, and holds sleeve in place.

Curved Armhole

Brings arm seams to the natural curve of the shoulder and holds garment snugly and smoothly up under arm, doing away with unnecessary cloth.

Patent Seat

This consists of a plait on each side of the back, instead of extra cloth in the middle where it causes discomfort. Always stays closed and allows sufficient room, sitting or standing.

Three-Cornered Gusset

Is so shaped as to relieve the usual strain at the thigh. Insures greater comfort and longer wear.

MENGLEWOOD CLOSED.

The Mengel Box Company plant at Menglewood has been ordered closed by the Louisville office. The reason given for this action is the fact that the concern is ahead on products which has accumulated on account of the European war, causing a falling off of demand for their products. According to advice received, the plant will be closed down for twelve months after Oct. 15. Capt. N. Pollard and W. B. Massie will remain in charge of the office. This will throw 600 men out of employment. A few of them will be transferred to the Hickman office. — Dyersburg State Gazette.

"A FINE STORY"

Dozens of our readers have informed us the Courier's new story, "A Fool and His Money," which started last week, opens with unusual interest and fascination. We are sure you will hear us out, when you read more of it, in the statement that it is one of the breeziest, interesting, clever romances ever written. It has all the quaint, mystic air about it found in that famous story (by the same author) "Gausmark."

The readers of this paper are pleased to learn that there is at least one cure for the most dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The medical profession have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

No, Benny, hay fever does not originate from hay, but from the bloom of ragweeds. No one has ever been known to contract it from a grassy field, nor does the bloom of widow's weeds have any effect, either, to prolong or cure the dabbled thing.
